MESSAGE FROM THE EXECUTIVE DIRECTOR OF THE OFFICE OF HOMELAND SECURITY STATISTICS

November 2023

I am pleased to present the Yearbook of Immigration Statistics for Fiscal Year 2022, prepared by the new Office of Homeland Security Statistics (OHSS). The Yearbook has been produced continuously since 1890 by the Office of Immigration Statistics, whose reporting started over 150 years ago and covers data back to 1820.

I am excited about this year's chapter of our history! OHSS was established in September 2023, replacing the Office of Immigration Statistics. The new office will expand its portfolio from immigration data to all DHS statistical data; it will operate independently; and it will work with OMB to become a recognized federal statistical unit. OHSS is led by the DHS Statistical Official. Its mission is to foster transparency and data-driven homeland security decision-making by analyzing and disseminating timely, objective DHS data and statistics.

I am pleased to respond to any questions you may have. Please do not hesitate to contact us at ohss@hq.dhs.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Rosenblum".

INTRODUCTION

Statistical data on immigration have been published annually by the U.S. Government since the 1860s. Over many years, the federal agencies responsible for reporting on immigration have changed, as have the content, format, and title of the annual publication. Currently, immigration data are published in annual yearbooks by the Office of Homeland Security Statistics in the Office of Strategy, Policy, and Plans of the Department of Homeland Security.

The *2022 Yearbook of Immigration Statistics* consists of a compendium of tables organized by subject matter, including:

Lawful Permanent Residents (Tables 1 to 12)

Lawful permanent residents (LPRs) are persons who have been granted lawful permanent residence in the United States. They are also known as “green card” recipients.

Refugees and Asylees (Tables 13 to 19)

Refugees and asylees are persons who sought residence in the United States in order to avoid persecution in their country of origin. Persons granted refugee status applied for admission while outside the United States. Persons granted asylum applied either at a port of entry or at some point after their entry into the United States.

Naturalizations (Tables 20 to 24)

Naturalizations refer to persons aged 18 and over who become citizens of the United States. Most lawful permanent residents are eligible to apply for naturalization within 5 years after obtaining LPR status.

Nonimmigrant Admissions (Tables 25 to 32)

Nonimmigrant admissions refer to arrivals of persons who are authorized to stay in the United States for a limited period of time. Most nonimmigrants enter the United States as tourists or business travelers, but some come to work, study, or engage in cultural exchange programs.

Enforcement Actions (Tables 33 to 42)

Enforcement actions include determining noncitizens to be inadmissible or apprehending, arresting, removing, or returning noncitizens for violating the Immigration and Nationality Act. These actions occur at the borders of the United States, in the interior of the country, and at designated sites outside the United States.

Technical Data Notes

The data presented in the *2022 Yearbook of Immigration Statistics* were obtained primarily from workload and case tracking systems of the U.S. Department of Homeland Security. Definitions by subject matter and information on data sources are available on the Office of Homeland Security Statistics website at: <http://www.ohss.dhs.gov>. Note that numbers appearing for a given year may change in subsequent yearbooks due to updating of data series.

Confidentiality

The Office of Homeland Security Statistics is committed to protecting the identity of individuals reported in the *2022 Yearbook of Immigration Statistics*. All data tables, therefore, have been edited to avoid divulging information about any individual by either direct or indirect means. The practice of cell suppression has been generally employed by placing a “D” (disclosure standards not met) in any cell that would show a count of 1 or 2, and in any associated cell that could be used to reveal such a count through calculation. The process of suppression does not change the marginal totals, so the integrity of the data is not affected.

X Not applicable.

¹ Estimated admission totals rounded to the nearest hundred thousand. Excludes sea and air crew admissions (D1 and D2 visas).² Issuances of H2R (returning H2B workers not subject to annual numerical limits) ceased at the end of 2007.³ On January 27, 2022 two new classes of admission were approved (L2S and L2Y) to differentiate between spouses and children of the principal applicant L1. The original L2 class has been retired. Previous years show spouses and children of principal applicants as L2; use of L2S and L2Y starts in 2022.⁴ New classes of admission were approved January 27, 2022 to differentiate spouses and children from principal applicants for classes of admission E1, E2, and E3. Spouses and children of principal applicants are included in visas E1, E2, and E3 for years prior to 2022.

Notes: Admissions represent counts of events (i.e., arrivals), not unique individuals. Multiple entries of an individual on the same day are counted as one admission. The majority of short-term admissions from Canada and Mexico are excluded. Numbers in this table may differ from previously published figures due to updating of data series.

X Not applicable.

¹ Includes countries and territories/dependencies.

² The number of I-94 nonimmigrant admissions beginning in 2013 greatly exceeds totals reported in previous years due to a more complete count of Canadian air and sea admissions.

³ United States includes nonimmigrants who self-report that they reside in the United States.

⁴ Figures for Serbia and Montenegro (former) and Netherlands Antilles (former) for 2021 and onward are assigned to Unknown.

Notes: Admissions represent counts of events (i.e., arrivals), not unique individuals. Multiple entries of an individual on the same day are counted as one admission. The majority of short-term admissions from Canada and Mexico are excluded. In this table, data are withheld for any cell with a count between 1 and 10, and for any associated cell that could be used to reveal such a count through calculation.

D Data withheld to limit disclosure.

¹ Prior to 2016 reporting methodology limits data to one Immigration and Customs Enforcement (ICE) ERO administrative arrest for a single person on a single day; beginning in 2016 the reporting methodology was revised to align with ICE ERO reporting, which may include multiple arrests on a single day.

² U.S. Customs and Border Protection (CBP) U.S. Border Patrol (USBP) and CBP Office of Field Operations (OFO) data for 2020, 2021, and 2022 include encounters resulting in expulsions on public health grounds under U.S. Code Title 42 in response to the COVID-19 pandemic.

³ Historical figures for ICE ERO administrative arrests may differ from those published by ICE due to difference in reporting methodologies.

⁴ Refers to field offices abroad.

Notes: Data include CBP USBP apprehensions, CBP OFO inadmissibles, ICE HSI administrative arrests, and ICE ERO administrative arrests. CBP OFO inadmissibles in this table only include enforcement encounters, reflecting attempted unlawful entries into the United States.
